

LINCOLN UNIVERSITY CONDUCTS GROUND BREAKING FOR \$26.1 MILLION INTERNATIONAL CULTURAL CENTER

LINCOLN UNIVERSITY, PA ~ Lincoln University took another step on Saturday (April 19) toward the realization of a \$26.1 million International Cultural Center (ICC) with a ground breaking ceremony at the construction site of state-of-the-art facility.

It was the second such event during this academic year. In November the university broke ground for a \$40.5 million General Classroom and High Technology Building.

According to Lincoln University President Ivory V. Nelson, reaching the point of breaking ground for the ICC is the culmination of several years of planning and positive discussions.

“We are very pleased to break ground for this state-of-the-art facility,” President Nelson said. “This project was conceived before my arrival and I am excited that it has come to fruition. This building has tremendous implications, not only for teaching and learning but also as a resource for our community.”

Dr. Calvin Morris, chair of the Board of Trustees, said: “This has been an extraordinary year for new construction at Lincoln University. This building is tangible evidence of our commitment to excellence in teaching, learning and public service. We are continuing to advance the Lincoln legacy.”
